About RCA

RCA is the premier association representing rural wireless telecommunications providers across the United States. RCA speaks with a strong, united voice on issues that concern its members and keeps them informed through timely sharing of information, knowledge and expertise to the common benefit of all members.

RCA has been at the heart of the rural wireless success story since it began in 1992. Our primary focus is representing two-way wireless communication providers with less than 10 million subscribers. These companies primarily serve small rural and regional markets each with its own set of challenges and opportunities. RCA's primary goal is to help our members meet those challenges successfully and capitalize on all opportunities. In addition, RCA provides opportunities to learn more about the industry and network with other members through various meetings and seminars.
